## Pallet Racking Column Guards

Pallet Racking End Protectors are a highly effective solution for preventing damage to racking and inventory by forklifts.

No matter how good your forklift drivers are, there will always be sometime when an accident or mistake happens when they crash into the pallet racking. You can avoid major injuries and pallet rack damage by installing these protection guards.

Damage and failure not only cause serious safety issues but disassembling, repair, reassembling and reloading of pallet racks add significantly to running costs.

- Single Bay End Protector to suit 838mm frame
- Double Bay End Protector to suit 838mm frame + 430mm space + 838mm frame
